

Enabling Picklist Values

Enabling Picklist Values

NOTE: Organizations using Salesforce Professional Edition, may encounter the following error when attempting to access Picklist values. This is because of an api used by Strategy Mapper is not included in Professional edition. Please go to Appendix 1 for the "work around" to configure the Picklist values.

"Web service callout failed: WebService returned a SOAP Fault: API_DISABLED_FOR_ORG: API is not enabled for this Organization or Partner faultcode=sf:API_DISABLED_FOR_ORG faultactor= Error is in expression '{!init}' in page meetingmapper:addpicklistvalues: (MeetingMapper)"

1. In All Tabs -> click on Add Picklist Values -> the initial time you launch Picklist Values the following error is displayed (*Figure 1*).

IO Exception: Unauthorized endpoint, please check Setup->Security->Remote site settings. endpoint = https://aprilismmeetingmapper.na30.visual.force.com/services/Soap/m/33.0 Error is in expression '{Init/' in page meetingmapper:addpick/listvalues: (MeetingMapper)
An unexpected error has occurred. Your solution provider has been notified. (MeetingMapper)
